### **Message of DG**

I am pleased to know that Central Detective Training Institute, Hyderabad is bringing out the Annual Report for 2023-2024.

The three Central Detective Training Schools at Kolkata, Hyderabad and Chandigarh, which were earlier functioning under Intelligence Bureau, have been transferred to BPR&D and are functioning under the Training Directorate of BPR&D. Later on, two more Schools were set up at Ghaziabad and Jaipur. The nomenclature of these Schools has been changed to Central Detective Training Institutes from 2017. Each CDTI has been developed into a Centre of Excellence.

The Central Detective Training School, Hyderabad has been declared as Centre for Excellence in "Police Information Technology and Cyber Crimes". The training programmes organized at CDTI, Hyderabad have focused on the latest developments in the field of criminal investigation thereby helping the investigating officers equip themselves with modern practices. The setting up of the National Cyber Research, Innovation and Capacity Building Centre under the Indian Cyber Crime Coordination Centre (I4C) at CDTI, Hyderabad also boosted the training capabilities.

I appreciate the Officers and staff for making sincere efforts in bringing out the Annual Report and wish them all the very best.

## MESSAGE OF IG TRAINING

I am pleased to know that the Central Detective Training Institute, Hyderabad is publishing its Annual Report 2023-2024.

Ever since its inception in 1964, CDTI, Hyderabad has been making rapid strides in imparting training to Law Enforcement Officers. After being designated as Centre for Excellence in “Police Information Technology and Cybercrime” and with the establishment of the **National Cyber Research, Innovation and Capacity Building Centre** under the Indian Cyber Crime Coordination Centre (I4C) at CDTI, Hyderabad, it has been making tremendous contribution towards capacity building of police officers in the field of Investigation of Cyber Crimes.

Apart from organizing courses for Police Officers, it has started imparting training to Prison Officers and Prosecutors which needs appreciation. With the outbreak of the COVID-19 pandemic and the subsequent lockdowns, CDTI, Hyderabad quickly adapted itself to the trend of “online classes”. Not only did they adopt to it, they took full advantage of it by organizing more number of courses, reaching out to more States, UTs and Police Organizations, organizing Awareness Programmes for College/School students, etc. with the notification of New Criminal Laws – 2023 (BNS, BNSS, BSA), it has also imparted training to Police Officers, Prosecutors and Prison Officers.

I am sure that the Annual Report being published depicts the immense contribution made by them in the past year.

I congratulate the Director and his entire team for making tremendous efforts not only to bring out the Annual Report but also for making valuable contribution in the capacity building of Law Enforcement Officers.

I wish them all the very best in their future endeavors.

**ANURAG KUMAR, IPS**  
**IG/DIRECTOR (TRG)**

# MESSAGE OF DIRECTOR

It is a matter of immense pleasure for me to bring out the Annual Report for the year 2023-24 of the Central Detective Training Institute, Hyderabad. The Report contains a true and full account of the activities undertaken by this Institute in the previous Calendar Year.

Starting from a rented accommodation in the year 1964, CDTI, Hyderabad has come a long way. CDTI now functions in its own building at Ramanthapur and its infrastructure is being upgraded from time to time to meet the ever-growing demand for training. Starting with two courses in a year in the initial days, CDTI has trained more than 3,000 officers in about 83 courses in the reporting year. Apart from training Police Officers, CDTI started imparting training to Prosecution Officers and Prison Officials.

Being declared as Centre of Excellence for “Police Information Technology and Cybercrime” coupled with the establishment of “National Cyber Research, Innovation and Capacity Building Centre” under the Indian Cyber Crime Coordination Centre (I4C), MHA, enabled CDTI-Hyderabad to hone the investigative skills of police officers in the field of cybercrimes. With the notification of New Criminal Laws -2023, CDTI-Hyderabad conducted courses on ‘Sensitization of New Criminal Laws - 2023’ for Police Officers, Prison Officers and Prosecutors. It has been our continuous endeavor to improve the investigative skills of the Law Enforcement Officers and I am proud to say that we are moving in the right direction.

I take this opportunity to compliment the CDTI Team for their untiring efforts in designing the Annual Report. I am sure that the Annual Report 2023-2024 will be useful to all the Police Forces in India.

## INTRODUCTION

The Central Detective Training Institute, Hyderabad was inaugurated on 28th September, 1964.

CDTI's were set up with the main objective of improving the standard of investigation in the country by familiarizing the investigating police officers with the various developments in Forensic Science which could aid the police in connecting the crime with the criminal using scientific evidence instead of relying on the old third-degree methods and unreliable oral evidence.

After functioning in Intelligence Bureau till 1973, the Central Detective Training Schools were transferred to Bureau of Police Research & Development. The nomenclature of Central Detective Training School was changed to Central Detective Training Institute in 2017. The designation of Principal has been changed to Director.

The motto of this institution is “*ज्ञानं सम्यग् वेक्षणम्*” which means  
**“WISDOM LIES IN PROPER PERSPECTIVE”**.

In the year 2017, BPR&D has declared Central Detective Training Institute, Hyderabad as **Centre of Excellence** for “**Police Information Technology & Cyber Crime**”.

“National Cyber Research, Innovation & Capacity Building Centre” was inaugurated by the Hon’ble Minister of State for Home, Govt. of India, Shri G. Kishan Reddy on 24-02-2020 under I4C Scheme of MHA. In 2023-24, 16 courses have conducted in this lab on the topic “Cybercrime Investigation & Digital Forensics (Basic & Intermediate)” in which 447 Police officers were imparted training.

In the Calendar Year (2023-2024), CDTI, Hyderabad has organized **83 courses** in which **3289 Officers** were imparted training. Apart from conducting training courses, one day webinars/ workshops/ conferences are also organized from time to time.

As part of social responsibility, we have also organized **Awareness Programmes for school/ college students**. CDTI, Hyderabad has conducted 05 Awareness programmes in 2023-24 in which **303 students/ teaching staff** have participated.

One **ITEC (Indian Technical and Economic Cooperation)** course on ‘Cyber Crime Investigation & Artificial Intelligence’ was conducted exclusively for **20 Nos. of Sri Lankan Police Officers** in collaboration between MHA & MEA.

Time to time, Institutional Visit also arranged for in-service officers of Paramilitary forces.

## MISSION & VISION

Criminal Investigation has always been a very difficult and complicated task. A very large number of criminal cases remain undetected because many investigating officers are neither properly trained nor have a good experience. Not only that, a shoddy investigation means the culprit goes scot free which tarnishes the image of the police. Over a period of time with the change in society, many changes in crime have also emerged owing to technology and innovations. Crime can be committed by anyone regardless of their economical, political or social positions. It is suggested that crime does not disappear it simply changes. So, criminals learn newer and better ways to commit a crime. Some crimes that emerged over the time with changes occurred in society and technology are Cybercrime, White collar crime, etc. Police training is a continuing activity and the better the training the better the policing.

The objective of the CDTI is to provide training to in-service police personnel/CAPF, CPO and Police officers from abroad (like Srilanka, Cambodia, Sudan, Guyana, etc) to enhance their investigative skills by -

- 1 Imparting the latest knowledge of scientific technique
- 2 Appraising them about best practices in investigation
- 3 Elevate the proficiency in latest developments in forensic science, cybercrime and cybercrime investigation & artificial intelligence
- 4 The main goal is to identify, collect, preserve, and analyze data in a way that preserves the integrity of the evidence collected so it can be used effectively in a legal case.

It has been the constant endeavor of CDTI, Hyderabad to continuously improve upon the quality of course contents, study materials, case studies, etc. and make the in-service training more practical oriented and interactive.

# CAPACITY BUILDING PROGRAMMES

CDTI Hyderabad continued to build the capacity of LEAs i.e., police officers, and prosecutors in handling cybercrime investigation. Apart from the excellence in cybercrime training, we also provided a platform for stakeholders to overcome the pressures in their professional life by organizing courses such as Self-Development & Conflict Management (work-life balance, leadership, professional skills, etc.). CDTI-Hyderabad could overcome the challenges posed by the pandemic and could successfully reach out to Police Officers from friendly countries.

The conduct of ITEC (Indian Technical and Economic Cooperation) Course for the Sri Lankan Police Officers in collaboration with Ministry of External Affairs under the able guidance of BPR&D was a remarkable achievement. Courses on Women Safety were organized for Police Officers and Prosecutors in order to sensitize them on the issue. Thus, CDTI-Hyderabad is continuously striving to increase the investigative skills of the Law Enforcement Officers by introducing and organizing new courses to tackle the emerging crimes.
